- ✓ Dr. Sefranek is a general dentist member of the American Academy of Pediatric Dentistry
 - ✓ Our practice combines the services commonly offered by a pediatric dentist with those commonly offered by an orthodontist
 - ✓ We keep current by continually attending courses for the pediatric dentist to bring you the latest in kids dentistry.
 - ✓ We incorporate interceptive orthodontics & space maintenance principles to allow all teeth to come into the mouth in normal positions.
 - ✓ We encourage family members to be a part of all dental visits for children.
 - ✓ By emphasizing the prevention we encourage healthy dental habits.
 - ✓ We show children how to brush and avoid cavities.
 - ✓ All dental restorations in children are tooth colored.
 - ✓ We encourage Space Development to help make sure all adult teeth have room in the growing mouth.
 - ✓ Face Development evaluation and treatment options are discussed at all children's dental visits.
 - ✓ Invisalign®
 - ✓ Braces
 - ✓ Invisalign®
 - ✓ New Cosmetic options to traditional braces
 - ✓ Broad attractive smiles – Our approach with cosmetic slow expansion, comfortably develops smiles beginning with hidden appliances that don't show when the patient smiles.
 - ✓ Removable Orthodontics which allow patients to leave the home for work or school with no appliances in their mouth.
 - ✓ Space Development
 - ✓ Craniofacial Orthopedics & Face Development – We perform orthodontics with the goal of a more attractive appearance including full cheeks, an attractive chin and proper nasal breathing.
 - ✓ Treatment for Jaw Pain or Clicking Jaws
